

# CONTENTS

Chapter 1. Introduction .....	1
Section 1. Objectives and Necessity of Research .....	1
1. Necessity of Research .....	1
2. Strategy of Research .....	3
Section 2. Scope of Research .....	6
1. Objectives and Scope of technology development .....	6
Chapter 2. The status of technology development .....	13
Section 1. Trend in relevant technology and patent home and abroad .....	13
Section 2. Analysis of domestic and global market and the industry status .....	14
1. Domestic technology status .....	14
2. International technology status .....	15
3. Technology road map .....	16
Chapter 3. The contents and results of the development .....	17
Section 1. Advancement of the measurement system .....	17
1. Diagnosis of the measurement system and the fundamental study .....	17
2. Technology development of the advanced measurement system .....	44
3. Completion and evaluation of the advancement of the measurement system .....	96
Section 2. Improvement of the facility control system .....	141
1. Diagnosis of performance of the facility control system .....	141
2. Derivation of improvement methods for the facility control system .....	163
3. Completion and evaluation of improvement of the facility control system .....	189
Chapter 4. Accomplishment of research and its contribution .....	228
Section 1. Accomplishment of the research results .....	228
1. Accomplishment of the 1 <sup>st</sup> year .....	228
2. Accomplishment of the 2 <sup>nd</sup> year .....	229
3. Accomplishment of the 3 <sup>rd</sup> year .....	231
4. Technology development contribution .....	232
