

< Table of Contents >

I . Overview of R&D	1
1.1 Goals of R&D	1
1.2.Necessity of R&D	2
1.3 The scope of R&D	4
II . Domestic and International Trend and Environment Analysis	6
2.1 Domestic and International Technology Development Condition	6
2.2 Part of Design Information	7
2.3 Part of Design application Technology	8
2.4 Status of Research results in the Current state of the technology development at domestic and foreign	8
III. R&D Contents and Results	11
IV. Goal Achievement and Contribution	69
4.1 Goal Achievement	69
4.2 Contribution	72
V. Using plan of R&D Results	74
5.1 Using Plan of R&D Results	74
VI. International Technology Information from R&D performance	77
VII. Security level of R&D Results	79
VIII. Research Facilities and Equipments	80
IX. Laboratory Satety Implementation	81
X. Representative Research Results	84
XI. etc	85
XII. Reference	98
